EDUCATION HISTORY

Post Graduation

Course Diploma(Information Technology)
College Government Polytechnic Awsari
Year of Passing 2023

Graduation

Course B.Tech/B.E.(Information Technology)
College Sanjivani Rural Education Society's
College of Engineering, Pune
Year of Passing 2026

PROJECTS

Transformer Testing System, 62 Days

This project is focusing on creating a Transformer Testing System to be used by industry to get their calculations responded easily through this website. This system helps to reduction in testing process time, instant error free calculation report regeneration and increase the testing productivity. Increasing the scope of the system by adding the various test like winding resistance test, insulation resistance test, voltage ratio test, dielectric test, load loss test, no load loss, test type test and special test. Values entered by the user will be calculated and software will automatically generate bill of material according to the tests selected and total cost will be generated.

Scrunchie store, 2 Weeks

Developed a dynamic e-commerce website for a scrunchie store, utilizing HTML, CSS, JavaScript, and PHP. Implemented features including product catalog, user authentication, shopping cart, and payment processing for a seamless shopping experience. Achieved a secure and efficient online shopping platform, enhancing user engagement and driving sales.

PortFolio, 1 Weeks

Designed and developed a responsive portfolio website using HTML, CSS, JavaScript, and Bootstrap to present a professional online presence
